

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

WASHINGTON, D.C. 20460

4/12/23

OFFICE OF
LAND AND EMERGENCY
MANAGEMENT

Carolyn Slaughter
Director, Environmental Policy
American Public Power Association
2451 Crystal Drive, Suite 1000
Arlington, Virginia 22202

Dear Ms. Slaughter:

The Office of Resource Conservation and Recovery (ORCR) of the U.S. Environmental Protection Agency (EPA) grants approval to the American Public Power Association (APPA) members listed in Appendix II of the enclosed Approvals. The Approvals allow the disposal of less than 50 parts per million (ppm) PCB Remediation Waste under the Toxic Substances Control Act (TSCA) in certain non-TSCA approved disposal facilities, such as municipal solid waste landfills, non-hazardous waste landfills, and hazardous waste landfills contingent on the terms and conditions specified therein. These Approvals are issued pursuant to Section 6(e)(1) of the Toxic Substances Control Act (TSCA) of 1976 (Public Law 94-469) and the Federal PCB Regulation, 40 CFR 761.61(c). These are national Approvals because they may be used in more than one EPA Region. The Approvals are effective upon the EPA's signature and, unless specified otherwise in Condition 12, expire five (5) years from the aforementioned signature date.

On February 6, 2023, EPA issued for public comment the draft version of these Approvals to be issued to the APPA members listed in Appendix II. The public comment period was open through March 6, 2023. EPA received one comment from the Utility Solid Waste Activities Group (USWAG) in support of the Approvals. EPA is now issuing to the APPA members listed in the Approvals, with no changes to the draft version, the enclosed final Approvals. EPA has found that PCB remediation waste generated at secure utility assets with as-found concentrations of less than 50 ppm PCBs that is disposed of in certain non-TSCA approved facilities in accordance with these Approvals will not pose an unreasonable risk of injury to health or the environment.

A violation of any requirement of an approval or any applicable federal PCB regulation may subject an APPA member listed in the Approvals to enforcement action and may be grounds for modification, revocation, or suspension of its approval. Modification, revocation, or suspension of an approval may also result from future EPA rulemaking(s) with respect to PCBs or from new information gathered by or that becomes known to the EPA.

Please contact Luke Weber of my staff at (202) 564-6576 if you have any questions regarding these Approvals.

Sincerely,

 Digitally signed by SONYA
SASSEVILLE

AUTHORITY

These Approvals are issued pursuant to Section 6(e)(1) of the Toxic Substances Control Act (TSCA), and the Federal Polychlorinated Biphenyl (PCB) Regulations at 40 CFR 761.61(c).

Failure to comply with the approval conditions specified herein shall constitute a violation of these Approvals and of 40 CFR 761.61(c) and 761.50(a) and may also be a violation of other provisions of 40 CFR part 761, subpart D. A violation of the regulations or an order issued pursuant to TSCA and its implementing regulations is a prohibited act under Section 15 of TSCA.

BACKGROUND AND FINDINGS

Background information on the American Public Power Association (APPA) and the Environmental Protection Agency's (EPA's) findings related to these Approvals are included in Appendix I.

EFFECTIVE DATE

These Approvals are effective upon signature by the Director of the Program Implementation and Information Division (PIID) in the Office of Resource Conservation and Recovery (ORCR) and shall expire five years after the date of signature, unless otherwise specified in Condition 12.

- III. Notification Form

DEFINITIONS AND ACRONYMS

Definitions found in 40 CFR 761.3 apply unless otherwise noted below.

“Appropriate EPA Regional PCB Coordinator” means the PCB Coordinator(s) for the EPA Region(s) where the cleanup site and final disposal facility are located. A list of PCB Coordinators and their contact information can be found at the following website: <http://www.epa.gov/pcbs/program-contacts>.

“As-found” means the concentration of PCBs in the waste at the Site at the time the waste is discovered, as opposed to the concentration of the PCBs in the material that was originally spilled, released, or otherwise disposed of at the Site. Members shall not dilute the waste prior to determining the as-found concentration of the contaminated waste, for example, by excavation or other management activities.

“MSWLF” means municipal solid waste landfill.

“PCB Remediation Waste” means PCB remediation waste as defined in 40 CFR 761.3.

“Secure utility asset” or “Site” means a facility that is fenced, locked, guarded/monitored, or otherwise not accessible to the general public where PCB response actions are conducted and performed by, or under the supervision of, utility professionals and/or consultants with experience in responding to and remediating PCB releases. Secure utility asset includes, for example, service centers, substations, switch-yards, power generating stations, network vaults, gas utility distribution centers, and natural gas metering, regulating, and compressor stations and service centers that are properly fenced, locked, guarded/monitored, or otherwise not accessible to the general public.

“APPA Member” means the APPA member, as identified in Appendix II of these Approvals, who is receiving approval for disposal of as-found concentrations of < 50 ppm PCB Remediation Waste originating from a secure utility asset it owns or operates.

CONDITIONS OF APPROVALS

(1) Applicability

APPA Members may dispose of non-liquid PCB Remediation Wastes with as-found PCB concentrations of less than (“<”) 50 parts per million (ppm)¹ in non-TSCA approved landfill facilities, which includes MSWLFs, as described in Condition 8, provided the APPA Member satisfies the conditions of these Approvals, and the PCB Remediation Waste is generated at a secure utility asset that is owned or operated by an APPA Member. In cases where the listed APPA Member is a parent company, the permissions of these Approvals apply to PCB Remediation Waste generated at secure utility assets owned or operated by the Member’s operating company, if the parent company retains responsibility or liability for the PCB-related operations at the secure utility asset.

(2) Agency Approvals or Permits

Prior to commencing operations under these Approvals, the APPA Member shall obtain any other necessary federal, state, or local permits or approvals associated with the cleanup, removal, storage, transportation, and disposal of the PCB Remediation Waste subject to these Approvals.

These Approvals do not shield APPA Members from obligations to comply with any other applicable federal, state, and/or local laws, regulations, or ordinances.

PCB Remediation Waste remaining at the Site that is not disposed of under these Approvals is not covered by these Approvals and is subject to any applicable cleanup and disposal requirements of 40 CFR part 761, subpart D.

When these Approvals are used for disposal of PCB Remediation Waste, the APPA Member shall conduct site cleanup in accordance with either 40 CFR 761.61(a), (b), or (c). Completion of compliant cleanup and disposal is necessary for the continued use of the site under 40 CFR 761.30(u).

(3) Public Notice

To provide information to the public, no less than two (2) working days before the first shipment of PCB Remediation Waste leaves the control of each APPA Member utilizing these Approvals, the APPA Member shall post prominently on their website this approval document and a notice to the public stating that the Approval allows the Member to dispose of PCB Remediation Waste with as-found concentrations of < 50 ppm PCBs in non-TSCA approved landfill facilities, including MSWLFs, as described in Condition 8. Such notification shall be considered “prominent” for purposes of this condition if posted on a part of the APPA Member’s website where a visitor to the website would reasonably expect to see announcements of environmental projects or community outreach activities, including for example and without limitation, an Environmental Services or Member Services webpage of the APPA Member’s website. The notice shall include contact information of an individual employed by, or an office of, the APPA Member to be used by individuals seeking additional information from the APPA Member regarding the existence,

¹ These approvals also apply to PCB Remediation Waste non-porous surfaces having surface concentrations less than 100 µg / 100 cm².

applicability, and/or use of the Approvals. The aforementioned public notice and the copy of the Approvals shall stay posted on the APPA Member's website until these Approvals expire.

(4) Notification

For each disposal conducted under these Approvals, the APPA Member shall submit notification by certified mail or email no less than two (2) working days before the first shipment of PCB Remediation Waste leaves the control of the APPA Member to:

- a) The EPA Headquarters Office of Resource Conservation and Recovery's (ORCR's) Cleanup Programs Branch Chief;
 - i. **By email:** ORCRPCBs@epa.gov
 - ii. **By mail (USPS):**
Cleanup Programs Branch Chief
Office of Resource Conservation and Recovery
U.S. Environmental Protection Agency
1200 Pennsylvania Ave., N.W. (Mail Code 5303T)
Washington, DC 20460-0001
 - iii. **By courier (FedEx, UPS, etc.):**
U.S. Environmental Protection Agency
William Jefferson Clinton West Building
1301 Constitution Avenue N.W.
Washington, DC 20004
- b) The appropriate EPA Regional PCB Coordinator (see <https://www.epa.gov/pcbs/epa-regional-polychlorinated-biphenyl-pcb-programs#regionalcontacts> for contact information); and
- c) The appropriate state, tribal, and/or local government officials where the APPA member's secure utility asset is located.

This notification is required each time that the APPA Member disposes of PCB Remediation Waste using these Approvals.

The notification shall contain the following information, and may be provided in the form found in Appendix III:

- a) APPA Member name (as it appears in Appendix II) and address;
- b) EPA ID number of the secured utility asset, if the APPA Member has one;
- c) Name and contact information (phone and email address) of primary APPA Member contact;
- d) Name and contact information (phone and email address and, if not the same as the address of APPA Member, mailing address) of primary APPA Member recordkeeping contact;

- e) Site location (street address, city, county, state, and zip code; latitude/longitude coordinates are permissible if Site does not have a street address);
- f) Date PCB Remediation Waste was discovered;
- g) Size of Site area containing the PCB Remediation Waste being disposed of pursuant to these Approvals;
- h) Description of the PCB Remediation Waste, including maximum as-found PCB concentration and estimated quantity to be disposed of under these Approvals; and
- i) Name, location, and type of facility where the waste will be disposed.

EPA will make these notices available to the public on its website at <http://www.epa.gov/pcbs/>.

For each disposal conducted under these Approvals, the APPA Member shall provide written notice to the disposal facility stating that it will ship PCB Remediation Waste with as-found PCB concentrations of < 50 ppm PCBs to the disposal facility (see Condition 8). This written notice shall be kept in accordance with the recordkeeping requirements of Condition 5.

(5) Record Keeping

The APPA Member shall maintain the following records either at the Site where the PCB Remediation Waste was generated, or at a facility owned or operated by the APPA Member, for a period of five (5) years following the transport of the PCB Remediation Waste off-site for disposal and shall make such records, in hard copy or electronic format, available upon request to EPA:

- a) Copy of this approval document;
- b) Copy of the notification submitted to EPA (see Condition 4);
- c) Description of the sampling and analytical methodologies used to confirm PCB concentrations of the PCB Remediation Wastes (see Conditions 6 and 7);
- d) Copy of analytical results from the characterization sampling conducted (see Conditions 6 and 7);
- e) Copy of the written notice the APPA Member provided the disposal facility (see Condition 4);
- f) Identification of the source of the spill (e.g., type of equipment), if known;
- g) Date, time, and source concentration of the spill, if known;
- h) A brief description of the spill location and the nature of the contaminated materials; and
- i) The amount of PCB Remediation Waste disposed of.

(6) Waste Characterization

The APPA Member shall characterize, at the time of discovery, the PCB Remediation Waste in accordance with one of the following procedures, as applicable to the particular substrate, to verify that the PCB Remediation Waste does contain as-found concentrations of < 50 ppm PCBs:

- a) Procedures for sampling bulk PCB remediation waste and porous surfaces as specified in 40 CFR 761.265;
- b) EPA guidance “*Standard Operating Procedure for Sampling Porous Surfaces for Polychlorinated Biphenyls (PCBs)*”² Revision 4, May 5, 2011, as that document may be amended, replaced, and/or superseded; or
- c) For non-porous surfaces only, standard wipe test as specified in 40 CFR 761.123 and 761.267.

(7) Waste Analysis

The APPA Member shall conduct chemical extraction for PCBs using: extraction Method 3540C and chemical analysis for PCBs using Method 8082A, or the most current version of these methods, from EPA’s publication SW-846, *Test Methods for Evaluating Solid Waste, Physical/Chemical Methods*; another method allowed for in the PCB Regulations at 40 CFR part 761 for the matrix being sampled; or another method which meets or exceeds the requirements of subpart Q. 40 CFR 761.1(b)(2) requires that PCBs be quantified based on the formulation of PCBs present in the material analyzed.³

(8) Disposal Options

Under these Approvals, PCB Remediation Wastes with as-found concentrations of < 50 ppm PCBs may be disposed of in any of the following facilities subject to state and local laws, regulations, or ordinances regarding such disposal:

- a) Facilities permitted, licensed, or registered by a state to manage municipal solid waste subject to 40 CFR part 258;
- b) Facilities permitted, licensed, or registered by a state to manage non-municipal non-hazardous waste subject to 40 CFR 257.5-257.30, as applicable, with the exception of any such unit that manages liquid wastes including pits, ponds, and lagoons;
- c) Hazardous waste landfills permitted by EPA under section 3005 of RCRA, or by a state authorized under section 3006 of RCRA;

In addition to the disposal options listed in these Approvals, PCB disposal facilities approved under 40 CFR part 761 and listed in 40 CFR 761.61(b)(2) for disposal of non-liquid PCB

² This guidance can be found at: <https://www.epa.gov/pcbs/standard-operating-procedure-sampling-porous-surfaces-polychlorinated-biphenyls-pcbs>

³ For example, measure Aroclor™ 1242 PCBs based on a comparison with Aroclor™ 1242 standards. Measure individual congener PCBs based on a comparison with individual congener standards. The results must be reported as total PCBs in the sample analyzed.

remediation waste, such as chemical waste landfills approved under 40 CFR 761.75, are disposal options for PCB Remediation Waste with as-found concentrations < 50 ppm PCBs.

(9) Waste Sampling and Handling Equipment

The APPA Member shall ensure equipment used for conducting waste sampling or waste handling (e.g., personal protective equipment, shovels, brushes, rags and wipes) which is contaminated by, or has been in contact with, PCB Remediation Waste disposed of under these Approvals is managed according to the requirements of 40 CFR 761.61(a)(5)(v) (including disposal in a MSWLF) or 40 CFR 761.79.

(10) Compliance

- a. The APPA Member shall ensure that activities conducted pursuant to these Approvals are in full compliance with the conditions of the Approvals. Failure to comply with any term or condition of these Approvals is a violation of the Approvals and of 40 CFR 761.50(a) and 761.61(c). A violation of the regulations or an order issued pursuant to TSCA and its implementing regulations is a prohibited act under Section 15 of TSCA. Any actions by the APPA Member which violate the terms and conditions of these Approvals may result in administrative, civil judicial, or criminal enforcement by EPA in accordance with Section 16 of TSCA, 15 USC § 2615.
- b. These Approvals do not constitute a determination by EPA that the transporters or disposal facilities selected by the APPA Member are authorized to conduct the transportation or disposal. The APPA Member is responsible for ensuring that its selected transporters and disposal facilities are authorized to conduct these activities in accordance with all applicable federal, state, and local laws, regulations, or ordinances.
- c. These Approvals do not: (1) waive or compromise EPA's enforcement and regulatory authority; (2) release the APPA Member from compliance with any applicable requirements of federal, state, or local law; or (3) release the APPA Member from liability for, or otherwise resolve any violations of federal, state, or local laws, regulations, or ordinances.
- d. Compliance with applicable PCB regulations at 40 CFR part 761 shall be maintained during all phases of work involving removal, handling, storage, and disposal of PCB Remediation Waste.

(11) Membership Changes

In the event that a company that joins APPA wants to obtain an approval with the same conditions, the new member must be submitted by APPA as follows. APPA shall submit electronically a list of current members in an updated "Appendix II: APPA Members" to ORCR's Cleanup Programs Branch Chief quarterly, as needed. APPA shall specify the new members in each update. Upon receipt of a submission reflecting new member companies that want to obtain an approval with the same conditions, EPA intends to publish for public comment a draft approval containing the same terms as these Approvals for each new company.

In the event that a Member listed in Appendix II leaves APPA, APPA may submit electronically a list of the departing Members to ORCR's Cleanup Programs Branch Chief quarterly, as needed.

Those companies shall continue to be able to utilize their approvals and will continue to be listed on Appendix II until their approvals expire.

(12) Expiration/Renewal

- a. These Approvals shall become effective upon signature and will expire five (5) years from the date of signature. In order to continue operating under these Approvals pending EPA action on reissuance, APPA Members, individually or through APPA, must submit written renewal applications to EPA at least 180 days prior to the expiration date of these Approvals.
- b. These Approvals and their conditions herein will remain in effect beyond the Approvals' expiration date if APPA Members, individually or through APPA, have submitted timely and complete applications for Approval and, through no fault of APPA or APPA Members, EPA has not issued renewed Approvals, a denial of an application for Approvals' renewal, or an official termination of Approvals.
- c. EPA may require submission of additional information in connection with the renewal of these Approvals.

(13) Non-Applicable Requirements

PCB Remediation Wastes managed in accordance with the Approval shall not be subject to the requirements of 40 CFR 761.65 or subparts J and K of 40 CFR part 761, except as otherwise noted in these Approvals.

DECISION TO APPROVE THE REQUEST FOR RISK-BASED DISPOSAL OF SELECT PCB REMEDIATION WASTES

1. Approvals to dispose of non-liquid PCB Remediation Waste generated at secure utility assets with as-found concentrations less than 50 ppm PCBs, as well as PCB Remediation Waste non-porous surfaces having surface concentrations less than 100 µg / 100 cm², in non-TSCA approved disposal facilities pursuant to 40 CFR 761.61(c) are hereby granted to APPA Members identified in Appendix II of these Approvals, subject to the conditions expressed herein. EPA reserves the right to modify the conditions of these Approvals or to withdraw the Approvals when (1) EPA obtains information demonstrating that operating in accordance with the conditions of these Approvals presents an unreasonable risk of injury to health or the environment; (2) EPA becomes aware of new information that requires changes; or (3) EPA issues new regulations, standards, or guidance for such approvals.
2. These Approvals do not relieve APPA Members (identified in Appendix II of these Approvals) of the responsibility to comply with all applicable federal, state, and local laws, regulations, or ordinances. Violations of any applicable federal, state, and local laws, regulations, or ordinances by any APPA Member may subject them to enforcement action and may result in such APPA Member's exclusion from these Approvals.
3. These Approvals may be rescinded at any time with respect to any APPA Member at a particular location(s) as a result of such APPA Member's failure to comply with the terms and conditions herein, failure to disclose all relevant facts, or for any other reason which the Director of PIID deems necessary to ensure that work conducted pursuant to these Approvals does not pose unreasonable risk of injury to health or the environment.
4. The APPA Member shall allow any authorized representative of the Administrator of the EPA to inspect the Site and to inspect records and take samples as may be necessary to determine compliance with the PCB regulations at 40 CFR part 761 and these Approvals. Any refusal by the APPA Member to allow such an inspection (as authorized by Section 11 of TSCA) shall be grounds for exclusion of said APPA Member from these Approvals.

APPENDIX I: Background and Findings

BACKGROUND

The American Public Power Association is the service organization for more than 2,000 community-owned electric utilities that serve more than 49 million Americans in 2,000 towns and cities nationwide. Collectively, public power utilities deliver electricity to one of every seven electricity consumers. Most public power utilities serve small communities of 10,000 people or less. Most APPA members are small entities, as defined under the Small Business Regulatory Enforcement Fairness Act.

On May 24, 2017, APPA applied for risk-based disposal approvals under 40 CFR 761.61(c) requesting authorization for its Members to dispose of PCB Remediation Waste generated at secure utility assets with as-found concentrations of < 50 ppm PCBs in non-TSCA approved disposal facilities. EPA issued for public comment the draft version of the original approvals to APPA Members in August 2017. The final approvals were issued on September 28, 2017.

On March 5, 2018, APPA provided an updated list of members, and requested additional risk-based disposal approvals for ten new members. EPA issued for public comment the draft version of the approvals to new APPA Members on April 26, 2018. The final approvals were issued without modification on June 15, 2018.

On September 30, 2019, APPA provided an updated list of members, and requested additional risk-based disposal approvals for two new members. EPA issued for public comment the draft version of the approvals to new APPA Members in October 2019. The final approvals were issued without modification on February 13, 2020.

On June 30, 2022, APPA applied for renewal of their risk-based disposal approvals. EPA issued for public comment the draft version of the renewed approvals in January 2023.

FINDINGS

EPA finds that the disposal of non-liquid PCB Remediation Waste generated at secure utility assets with as-found concentrations < 50 ppm PCBs, as well as PCB Remediation Waste non-porous surfaces having surface concentrations less than 100 µg / 100 cm², in the facilities listed in Condition 8 poses no unreasonable risk of injury to health or the environment when conducted in accordance with the conditions of these Approvals. Under the self-implementing cleanup and disposal provisions of 40 CFR 761.61(a), non-liquid PCB remediation waste containing PCBs < 50 ppm PCBs can be disposed of in non-TSCA permitted disposal facilities (40 CFR 761.61(a)(5)(i)(B)(2)(iii)). In the 1998 PCB rulemaking that, among other things, allowed for this disposal, EPA found it would “protect [] against unreasonable risk of injury to health and the environment from exposure to PCBs.” 63 Fed. Reg. 35384 (June 29, 1998).

APPENDIX II: List of APPA Members with Approval

APPA Member	City	State
Abbeville Public Utilities	Abbeville	South Carolina
Adrian Public Utilities Commission	Adrian	Minnesota
Advance Municipal Light & Power	Advance	Indiana
Aha Macav Power Service	Mohave Valley	Arizona
Aitkin Public Utilities Commission	Aitkin	Minnesota
Ak-Chin Energy Services	Maricopa	Arizona
Akron Municipal Electric Utility	Akron	New York
Akron Municipal Utilities	Akron	Iowa
Alabama Municipal Electric Authority	Montgomery	Alabama
Alameda Municipal Power	Alameda	California

APPENDIX III

******NOTIFICATION FORM******
Submit via email or certified mail.

In accordance with the 40 CFR 761.61(c) risk-based disposal approval issued by the U.S. EPA to dispose of PCB Remediation Wastes generated at secure utility assets and containing as-found concentrations < 50 ppm PCBs, the following information is provided:

A. APPA MEMBER IDENTIFICATION:

Company Name (as it appears in the Approval): _____

Address: _____

Primary APPA Member Contact Name: _____

Primary APPA Member Contact Information (phone and email address):

Primary Recordkeeping Contact Name (if not the same as the Primary APPA Member Contact):

Primary Recordkeeping Contact Information (phone, email address, and address if not the same as the addresses listed above): _____

B. SITE LOCATION:

EPA ID Number of the Secured Asset (if available): _____

Address: _____

City, County, State, Zip: _____

Latitude/Longitude (if no street address): _____

C. WASTE

Date waste was discovered: _____

Description of waste (max concentration, media, estimated quantity): _____

Size of Site area containing the PCB Remediation Waste being disposed of: _____

Name, location, and type of facility at which the waste will be disposed of: _____

Method of Submittal of this Notification (i.e., Certified Mail or Email)
