Mutual Aid Community Group

APPA hosts an online community group for member public power utilities, public utility districts, state associations, and joint action agencies focused on mutual aid. The group occasionally helps organizations communicate during natural disasters, provide restoration updates, and request aid. Members can also share best practices, lessons learned, and general information on mutual aid and disaster recovery.

Request to join the group at Engage.PublicPower.org, or email your name, title, organization, email address, and phone number to Membership@PublicPower.org.
